

IDWGP August Production

IDWGP Gross Production Table										
Turbine Name	Turbine Type	Average W/S (m/s)	Average Power (kW)	Capacity Factor	Total Energy (kWhrs)	Expected Energy (kWhrs)	Perf. Ratio	Online (Hrs)	N.Rdy (Hrs)	Avlblty (%)
T1	Z-50									
T2	Z-50									
T3	Z-50									
Avg.										
Tot.										
* IDWGP Monthly Station Power Consumption										
August 1st,2006 thru				August 31st,2006			4 798			
IDWGP Monthly Net Generation										
August 1st,2006 thru				August 31st,2006			240 800			
IDWGP YTD Net Production										
January 1st,2006 thru				December 31st,2006			4 207 000			
** IDWGP Monthly Power Consumption from Grid										
August 1st,2006 thru				August 31st,2006			1 400			
** IDWGP YTD Power Consumption from Grid										
January 1st,2006 thru				December 31st,2006			11 200			

* Power consumed by the Wind Farm when the Turbines are on-line and producing electricity.

** Power consumed by the Wind Farm when the Turbines are off-line. This power is feed in to the Turbines from the Grid.

Production table cannot be completed due to communications failure with ADMS computer.
